Let Hendricks College Network help you find...

Hidden Employee Benefits

Hendricks College Network is a nonprofit organization whose mission is to provide access to and support for post secondary education, business training, and workforce development in Hendricks County and the surrounding region.

We're here to help Hendricks County *Businesses* LEARN and GROW!

Hidden Benefits for Your Employees and You!

IMPROVE YOUR TUITION ASSISTANCE PROGRAM

Providing tuition assistance is an important benefit in today's business world. But are your employees taking advantage of this benefit to best benefit themselves and your company?

HCN can provide FREE onsite workshops to help employees be successful students in the classes or programs they are taking. By making these workshops available to employees on the lunch hour or before/after work, you provide them with the tools and talents they need to maximize their success in their classes, thus making the best use of the tuition assistance you provide! Workshop topics include: Financial Aid and Enrollment, Time Management, Note Taking and Study Skills, Writing Refresher, Math Refresher, and Research & Plagiarism in today's "e-world".

We can also set up regular visits to provide academic advising and guidance to anyone interested in taking classes. Our trained staff members are available to assist individuals in goal setting, course planning, and many more skills. We'll do it onsite during breaks or whenever you prefer!

TAKE THE HEADACHE OUT OF ONSITE TRAINING

Getting employees to agree to take classes or training programs after work or on their own time can be challenging. But finding the time to research all the possibilities for bringing classes and trainings to your company can be even more time consuming and frustrating.

HCN can help. We can help you identify training needs, research programs and choices, negotiate pricing, manage setup and even facilitate classes or training programs. We have connections with 15+ area universities, and a variety of training providers and online programs, so we can do the legwork of finding the program or programs that best suit your unique needs! We can be as involved or uninvolved as you prefer.

Let HCN do the hard work and provide you with just what you need...aspirin free!

PROVIDE ACCESS TO ONGOING PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

Education is lifelong, and keeping up with new technologies and opportunities is often overwhelming and time consuming. HCN can make this easier by bringing the needed continuing education opportunities into the county. Companies can identify what programs or certifications are needed, then HCN can find the programs available, and even bring them into the county for the convenience of employees!

Continuing education is currently available from a wide range of organizations, including Indiana Continuing Legal Education Forum, Indiana State Library, Purdue Continuing Engineering Education, ServSafe Food Handling, Licensing Boards, and many more. HCN's goal is to make staying current in your professional certification as simple as possible!
